Reputable Paid Directory of Dropshippers

It's not necessary to use paid directories, but sometimes we just want to shortcut the process of finding the right suppliers for our chosen niche.

There are several paid directories, but most are worse than useless. I say 'worse' because most of them are not working with genuine drop shippers directly.

The only one I recommend has been around since 1999, works with genuine certified suppliers (both drop shippers and wholesalers) and has an A+ rating with the Better Business Bureau.
